PROJECTS

DUH TRENDS PALAS POINT OF SALE SYSTEM

2024

DUH Trends Palas

Developed a Point-of-Sale (POS) and Inventory Management System to streamline sales transactions, inventory tracking, and product management. Implemented features for stock monitoring, sales recording, user authentication, and report generation to support efficient business operations.

FINANCE TRACKER WEB APP

2025

Academic Project

Developed a web-based personal finance management system that enables users to track income, expenses, and savings. Designed features for transaction recording, budget monitoring, and financial reporting to help users improve financial awareness and decision-making.

LINA: BUSINESS INFORMATION AND MANAGEMENT SYSTEM

2025 – Present

Capstone Project

Developed a Business Information and Management System for layer poultry farms to improve operational efficiency and decision-making. The system supports inventory management, production monitoring, pricing management, order processing, and workflow automation, providing farm owners with real-time access to business information and performance reports.

ACTIVITIES

AWS Learners Club

15 Apr 2026 - Present

Auditor

Served as Auditor of the AWS Learners Club, managing financial records, monitoring transactions, and supporting the successful implementation of club activities and learning programs.

Information Systems Student Association

06 Aug 2024 - Present

Auditor

Served as Auditor for the Information Systems Student Association, helping manage financial records, monitor transactions, and support transparent budgeting and reporting activities.
